Bid opening time: 9:30, September 5, 2018

Bid opening place: Conference Room, Lane 1705, Building A, Baodi Square, Dalian Road, Yangpu

Area, Shanghai (see the specific meeting arrangement on the current day).

VII. Miscellaneous

This bidding announcement will be released on China Tendering and Bidding Public Service Platform at <http://www.cebpubservice.com/>.

1. Project Overview:

This project is constructed on the roof of Shanghai Mingfa Auto Parts Company. The total installed capacity of the project is 1.2 MWP (subject to the final construction drawing). Among them, PV modules will be monocrystal more than 275Wp or monocrystal 270Wp. Besides, the string formation of grid-connected inverter will also be adopted. 380V or 10KV grid connection is proposed. The mode of distributed power generation and centralized grid connection will be adopted. All power generating units will be connected to the inverter and then be connected to 380V or 10KV user bus. Cables will be laid in cable well or pipe jack.

Project site: No.1065, Duhui Road, Minhang Area, Shanghai

Bidding contents: bidding contents include without limitation handling related facilities, all construction at the site, construction management, grid-connection coordination, supporting services and all other contents; specific contents of the project, purchasing scope and specific requirements to be met shall be subject to the bidding documents.

VIII. Supervision Department

The supervision department of this bidding project is ____/____.
