

Chapter I Invitation for Bids

Invitation for Bids of the General Contracting for the Shanghai Lingang GTA Semiconducto Distributed Photovoltaic Power Generation Project

(Tender No.: SZ 2020-225)

Project location: Shanghai

I. Bidding Conditions

The GENERAL CONTRACTING for the Shanghai Lingang GTA Semiconducto Distributed Photovoltaic Power Generation Project has been approved by the project examination/approval/filing authorities. The self-raised project fund is RMB 4.23 million. The Tenderee is Shanghai Lingang Hongbo New Energy Development Co., Ltd. This project is ready for bidding and now is open for public bidding **for eligible bidders from NDB member countries.**

II. Project Overview

Scale: The People's Republic of China has received the loan from the New Development Bank (NDB) toward the cost of "Lingang Distributed Solar Power Project" and it intends to apply part of the proceeds of this loan to payments under the Contract for "Shanghai Lingang GTA Semiconducto Distributed Photovoltaic Power Generation Project". The cost of construction and installation is RMB 4.23 million. 1. Project overview: construction of a distributed photovoltaic power stations on roofs of factory buildings, for which crystalline silicon modules will be used, and the grid-connected inverters will be string inverters. Distributed generation and centralized grid connection will be employed. Project site: Shanghai Project capacity: 1.8MWp 2. Bid substance: including but not limited to the going through of related procedures, all constructions, construction contracting management, grid connection coordination, and supporting services. The specific bid substance, purchasing scope and requirements shall be subject to bidding document.

Scope: The tender project has one lot, in which:

(001)General contracting for Shanghai Lingang GTA Semiconducto distributed photovoltaic power generation project

III. Qualification Requirements of Bidders

Qualified Bidders must meet following requirements:

1. They shall have independent legal person qualification, business license for enterprise as legal person issued by business registration authority, and corresponding business scope;

2. They shall have the qualification of grade 3 or higher in GENERAL CONTRACTING of electric power project construction;

3. They shall have safety production license; (For non-Shanghai enterprises, the safety production licenses must be filed in Shanghai.)

4. Their proposed project managers must be registered construction engineer with qualification of grade 2 or higher in mechanical and electrical engineering, and hold valid production safety certificate.

5. They undertake that their registered construction engineers are not working for any project under construction in Shanghai, and if changes occur with respect to the project principals during the performance of the contract, and the time after the change is less than half a year, they will not participate in the bidding of this lot. Letter of Commitment (Format is not specified)
